

## HIGH GLOSS FINISH

### CHARACTERISTICS

HIGH GLOSS FINISH is a silicone-free polishing cream consisting of precious waxes that removes dull and weathered spots on plastic surfaces. The colour is refreshed. The treated surfaces are sustainably protected against soiling, loss of gloss and fading by a durable wax film.

### APPLICATION

Polishing cream for weathered and matt surfaces with protective film effect. Suitable for GRP boats, plastic surfaces and chrome-plated surfaces.

### PRODUCT DATA

Packing:	200g, 500 g
Colour:	White
Specific weight:	1.0 kg/l

### PROCESSING

HIGH GLOSS FINISH is applied with a soft cloth or cotton wool and the surface is thoroughly polished with circular movements and light pressure. The cream residues are removed with polishing cotton wool and the surface is brought to a high gloss. Repeat this process if necessary. HIGH GLOSS FINISH can also be applied mechanically with a slow-running buffing wheel (max. 2000 rpm at 13 cm plate diameter) or LAMBSWOOL POLISHING PAD. Change the position continuously so that the surface does not become too warm.

HIGH GLOSS FINISH is silicone-free, so that subsequent coating systems are not affected. However, we generally recommend cleaning the surfaces with suitable degreasers and cleaning agents before repainting.

## PRECAUTIONARY MEASUREMENTS

For information on handling and disposal of the products, please refer to the valid safety data sheet and the relevant leaflets of the Employer's Liability Insurance Association of the Chemical Industry. The above information, in particular the suggestions for the processing and use of our products, are based on our knowledge and experience under normal circumstances. Due to the different materials, substrates and deviating working conditions, a guarantee of a work result or liability, from whatever legal relationship, can neither be justified from these instructions nor from verbal advice, unless we are charged with intent or gross negligence in this respect. In this respect, the user must prove that he has provided us in writing with all the knowledge required for a proper and promising assessment in good time and in full. Industrial property rights of third parties must be observed. In all other respects, our respective terms and conditions of sale and delivery shall apply. The latest technical data sheet, which should be requested from us, shall apply.
