

# DIANET 135

## Net Bleeder

### DESCRIPTION

**DIANET 135** is a knitted net bleeder which has a very high porosity allowing good air and resin flow. **DIANET 135** has a good elongation. This net bleeder is recommended for vacuum infusion technology with polyester, vinylester or epoxy resins. **DIANET 135** has been heat stabilized and de-oiled in order to avoid the rolling up of the flanges and contamination of the resin. This net bleeder doesn't contain silicone or oil. **DIANET135** is recommended for very large part and high speed flow infusion

**DIANET 135** can be used in the vacuum molding process for the debulking of prepregs.

### STORAGE

Keep this net at room temperature and normal hygrometry.

### CHARACTERISTICS

Color	Thickness	Weight	Styrene resistant	Max. Serv. Temp.	Packaging
White	1190 $\mu$	135 g/m <sup>2</sup>	YES	90 °C	Roll

Aspect	Standard Widths**	Standard Length**	Type	Resin flow speed	Resin consumption*
Knitted	1.45, 2 & 4 m	130 m	CO PE	High flow	489 g/m <sup>2</sup>

\* **Test conditions:** infusion under -1000 mbar, Epoxy resin: mix density 1,12 - Informational study, not contractual.

\*\*Other widths and lengths available under request
